Washington, DC 20554

RE: **Ex Parte Filing**

Accelerating Wireless Broadband Deployment by Removing Barriers to Infrastructure Investment (WT Docket No. 17-79); Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment (WC Docket No. 17-84); Streamlining Deployment of Small Cell Infrastructure (WT Docket No. 16-421); Reassessment of Federal Communications Commission Radiofrequency Exposure Limits and Policies (ET Docket No. 13-84)

On December 6, 2017, Tonya Rideout, NATOA's incoming Executive Director, and NATOA Board of Directors members Mike Lynch, Jodie Miller, Brian Roberts, and Daniel Cohen met with Commissioner Brendan Carr and his Chief of Staff Jamie Susskind.

During the meeting, we discussed a number of issues of concern to local governments that have been raised through comments filed to date in these proceedings, including the potential impact of any FCC action on recently enacted state small wireless facilities siting legislation, the need for an updated RF study on small cell deployments, the sharing of local government best practices, and the imbalance of local government representation on BDAC.

Pursuant to Section 1.1206(b) of the Commission's rules, a copy of this letter is being electronically submitted in the record of these proceedings and provided to the Bureau participants. Please do not hesitate to contact the undersigned with any questions.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Steve Traylor".

Steve Traylor
Executive Director
